**ACCS (I) Textbook of Cutaneous & Aesthetic Surgery**

*Association of Cutaneous Surgeons (I)*

_Mysore Venkataram_

- Easy to read with an agile and modern design.
- Topics updated with the latest developments.
- Excellent images with multiple examples (around 1100 images).
- Excellent-level international contributors.
- Recommended for both residents and most advanced dermatoscopists.
- Further reading references are given at the end of each chapter.
- An essential work in clinic-pigmented lesions.

**New ACS (I) Textbook of Cutaneous & Aesthetic Surgery**

*Horacio Antonio Cabo*

- Full Colour | Hardbound | 2/e, 2017
- 8.5" x 11" | 376 pp | 9789386056306
- 30 Contributors

**New IADVL Color Atlas of Dermatology**

*Lt Col Biju Vasudevan & Col Manas Chatterjee*

- 59 new chapters added covering new topics such as body-shaping, microneedling RF, new laser and energy technologies, platelet-rich plasma, aesthetic techniques, social media, marketing, and training in dermatosurgery and many more.
- New section added on regional surgeries.
- Enriched with almost 2000 colored images and Illustrations.
- Text boxes, tables, keynotes, and pearls are included in all chapters.

**New IADVL Color Atlas of Dermatology**

*30 Contributors*

- Full Colour | Hardbound | 1/e, 2017
- 8.5" x 11" | 1526 pp | 9789352700332
- 166 Contributors

**New Clinical Correlation with Diagnostic Implications in Dermatology**

*Biju Vasudevan*

- Encompasses recent advances in the clinical, investigational, diagnostic and therapeutic arenas.
- Covers common dermatological disorders, interesting and rare variants of these common disorders, especially seen in the Indian Subcontinent.
- Enriched with exhaustive list of about 2600 images of skin conditions: common and rare, mundane and esoteric, typical and atypical.
- Logical flow of images based on common appearances, morphological variants, different sites of distribution and rare presentations.

**New Clinical Correlation with Diagnostic Implications in Dermatology**

*13 Editorial Board 94 Contributors*

- Full Colour | Soft Cover | 1/e, 2017
- 8.5" x 11" | 612 pp | 9789386322661
- 2995

**New Color Atlas of Dermoscopy**

*Horacio Antonio Cabo*

- Full Colour | Hardbound | 1/e, 2017
- 8.5" x 11" | 1526 pp | 9789386056306
- 30 Contributors

- Key Features
  - Easy to read with an agile and modern design.
  - Topics updated with the latest developments.

  - Excellent-level international contributors.
  - Recommended for both residents and most advanced dermatoscopists.
  - Further reading references are given at the end of each chapter.
  - An essential work in clinic-pigmented lesions.

**New Color Atlas of Dermoscopy**

*3995*
A Handbook of Vitiligo & Color Atlas
SK Punshi

Key Features
- A simple guidebook on the subject.
- Presents an approach and evaluation of vitiligo and pigmentation disorders in general.
- Deals with various etiological causes and modalities of treatment and management of the disease.
- Provides extensive data on the basic science surrounding leukoderma, pigmentation and pigmentary disorders.
- Includes information about recent therapy, use of lasers, surgery, tattooing and other treatments.
- Contains a number of new flowcharts and photographs for better understanding the concept.

Complications in Cosmetic Dermatology
Crafting Curves
Ganesh S Pai

Key Features
- The book presents the potential side-effects and complications of procedures in aesthetic dermatology, with evidence-based guidance on their management.
- Procedures covered include Q switched laser, laser hair reduction, injectable botulinum toxin, mesotherapy, and chemical peels.
- Each chapter is supplemented by clinical pearls and a summary of key points.
- Enhanced by 300 full colour images and illustrations.

Hair Transplantation
Venkataram Mysore

Key Features
- The first and the most comprehensive book on hair transplantation (HT) in India.
- Authored by pioneers of hair transplantation in India.
- Thorough discussion of all aspects of hair transplantation—strip technique, follicular extraction, body hair transplantation, recipient area methods, instruments, techniques, handling complications, postoperative care, tips for best results.
- Reader-friendly format with images, schematic diagrams, tables, flow charts and text boxes.

Trichoscopy: A Text and Atlas
Subrata Malakar

Key Features
- The first book to demonstrate and decode the language of trichoscopy with illustrations.
- Methodical demonstration of trichoscopic findings in hair disorders aids in understanding the subject.
- Self-assessment images serve as an invaluable tool to judge the hold on the subject after a thorough reading.
- Algorithms listed at the end of the book help in approaching any hair disorder in clinical practice with ease.
- Demonstration of multiple new signs and findings arouses the inquisitive and interest of the readers.

Handbook of Dermatology Treatments
A Practical Guide to Topical Treatments, Systemic Therapies and Procedural Dermatology
Michael Ardern-Jones

Key Features
- Quick-reference guide to treating skin disease and will be an essential resource for general practitioners, primary care practitioners, trainee and practising dermatologists, nurses, nurse practitioners and physician assistants.
- Key points Organised by drug/treatment type, explaining how to use, when to use (and when not to use) and which diseases are commonly treated by each treatment option.
**Handbook of Psychodermatology**
Abdul Latheef EN

*Key Features*
- This handbook is a simple, yet comprehensive and reader friendly one touching all spans of psychodermatology which contains relevant information, useful for both a beginner and an expert.
- It offers a summarizing overview of:
  1. Clinical pattern in psychodermatology
  2. Psychoneuroimmunology
  3. Psychological aspect of cosmetic dermatology and sexually transmitted diseases
  4. Psychological interventions including meditation
  5. Psychopharmacology

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**Gynecologic Dermatology**
Symptoms, Signs and Clinical Management
Gudula Kirtschig & Susan M Cooper

*Key Features*
- A practical, highly illustrated guide written with the needs of the general dermatologist or gynaecologist in mind.
- Describes the pathogenesis, clinical presentation, differential diagnosis and management of the disease in question.
- Illustrated with over 500 photos, diagrams, tables and boxes.
- Symptom-based section reflects how patients present in real life.
- Provides algorithms/flowcharts to help with diagnosis.

**Moisturizers**
Rashmi Sarkar

*Key Features*
- A unique title providing in-depth knowledge on the use of moisturizers for ideal skin care.
- Use of moisturizers in various skin conditions such as acne, atopic dermatitis, and xerotic and ichthyotic disorders has been elaborated upon in detail.
- Chapters on the use of moisturizers in maintaining skin integrity and in the prevention of hand eczema provide information on the use of various moisturizing preparations.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.
- Highlights the role of NGOs in the eradication program, and the case histories for achieving the control over leprosy.

**IAL Textbook of Leprosy**
Bhushan Kumar & Hemanta Kumar Kar

*Key Features*
- Covers all aspects of leprosy.
- Covers special situations, viz. leprosy in children, leprosy and pregnancy, leprosy associated with HIV and issues related to community-based rehabilitation, psychosocial aspects, stigma, and migration in leprosy.
- Discusses problems of drug resistance, challenges and scenario beyond 2020.

Dermatology, Venereology & Leprosy
CATALOGUE 2017-18

Contact & Occupational Dermatology
James G Marks Jr, et al.

This practical guide to the evaluation and care of patients with contact or occupational dermatitis.
A separate chapter on occupations commonly associated with contact dermatitis.
Includes brand new information and photographs.
Highlight boxes provide quick reference for important points throughout.
This text is enhanced by 172 full colour images.

Hair and Hair Disorders: Diagnosis & Management
S Sacchidanand

Key Features
- Comprehensive textbook on hair and hair-related diseases in its entirety.
- Complemented with extensive data on hair-related disorders in the field of Dermatology.
- Based on sufficient research for the management of hair-related conditions.
- Concepts are explained by presenting symptoms and signs, differential diagnosis, therapeutics and surgical modalities.
- Important Points highlighted within text boxes.
- Includes recent advances in the field of trichology.

Hair Transplant 360 for Physicians (Volume 1)
Samuel M. Lam

Key Features
- Includes topics on Understanding Male and Female Pattern Baldness.
- Medical Management of Hair Loss.
- Hair Design, Donor Harvesting
- Postoperative Care, Identifying and Managing Complications.
- Creating Standardized Hair-Transplant Photography.
- Leadership, Office Management, and Marketing.
- Quality Control Algorithm for the Physicians.
- Case Studies, emphasizing creative approach to hair restoration.

Full Colour | Hardbound | 4/e, 2016
7” x 9.75” | 352 pp | 9788131529361

Hair Transplant 360 for Assistants (Volume 2)
Emina Karamanovski Vance

Key Features
- Thoroughly revised and expanded, featuring extensive study of graft preparation and placement.
- Discusses a new technique for extraction of follicular unit grafts and further elaborates on bioenhancement methodologies.
- Contains 25 new videos, covering various topics such as Surgery Overview, First and Second Phase of Surgical Set-Up, Prepping the Donor Area, Microscope Adjustment, Silvering, Graft Dissection, etc.

Full Colour | Hardbound | 2/e, 2016
8.5” x 11” | 258 pp | 9789352500376

Hair Transplant 360 for Physicians (Volume 2)
Samuel M Lam & Kenneth L Williams JR

Key Features
- This textbook is the fourth volume in the series of Hair Transplantation (FUE).
- Focuses on the pragmatic and clinical nature of hair transplantation, eschewing theoretical and arcane information.
- Highly pragmatic, nontheoretical “how I do it” approach to each chapter written by 16 global pioneers and experts in the field of FUE.
- 484 full-color, enlarged photographs and illustrations.

Full Colour | Hardbound | 1/e, 2016
8.5” x 11” | 502 pp | 9789352500369

Based upon a simple algorithmic approach that simplifies diagnosis of dermatological diseases.

This unique atlas uses pathologic findings correlated with clinical information to arrive at a precise diagnosis.

Color images illustrate the histological patterns along with clinical photographs.

Criteria required to make an accurate diagnosis is listed in an easy-to-use outline form.

Potential pitfalls in diagnosis are covered along with diagnostic pearls.

- The book is arranged in various chapters on various aspects of Lichen Planus and its variants.
- There are separate sections on its manifestations in children, Dermoscopic signs, association with malignancy, and topical, systemic and light therapies.
- The book is richly illustrated with more than 200 clinical, histopathologic and dermoscopic photographs.
- A good reference for every Dermatologist.

Covers the pathology and clinical correlations of the most important tropical diseases.

Each entity is described using brief text that summarises its epidemiology, pathogenesis and clinical features.

The diagnostic process is then described and illustrated using both clinical and histopathologic images.

Extensively illustrated with almost 600 photographs, Dermatopathology of Tropical Diseases is an invaluable resource for dermatopathologists, pathologists and dermatologists.

- Presents recent and up-to-date information on Plastic and Reconstructive surgery.
- Provides unique ideas developed by experts plasticsurgeons to treat body deformities.
- Contains high resolution surgical images, clinical photographs and diagrams.
- Focuses on subjects involving stem cells, liposuction, head and neck surgery, surgery of the breast, body and extremities.
- Contribution from 37 experts in the field.

- This pocket guide is designed to deliver the salient points of dermoscopy via concise text, highlighted the most relevant and important dermoscopic structures and features required to evaluate skin lesions, nail lesions and hair conditions
- The text is complemented by:
  - Easy-to-follow algorithms and flow charts
  - Clear and easy-to-understand schematics
  - Exemplar dermoscopy images emphasizing specific features discussed in the text and illustrated in the schematics
**Ward Rounds in Dermatology**  
Bela J Shah & Santosh Rathod

- Full Colour | Soft Cover | 1/e, 2017  
- 7.25" x 11" | 208 pp | 9789386322685  
- **₹ 995**

**Key Features**
- Richly illustrated comprehensive text including all the common indoor admissions in dermatology wards.
- Includes stepwise diagnostic algorithms given for each case.
- Details clinical history, bedside tests, laboratory diagnoses and therapy extensively.
- A chapter on frequently asked questions (FAQs) in examinations is included in the complete question-answer format.
- Contains chapters on immunosuppressant antibiotics and antihistaminic drugs.

**Dermoscopy in Darker Skin**  
Manas Chatterjee, et al.

- Full Colour | Hardbound | 1/e, 2017  
- 8.5" x 11" | 164 pp | 9789386322678  
- **₹ 1795**

**Key Features**
- Dermoscopy relevant to clinical practice in the Indian subcontinent and similar skin worldwide.
- Stress on a wide gamut of diffuse pigmentary disorders of face and other parts of the body.
- Emphasis on nonpigmentary conditions which look different in pigmented skin.
- Highly illustrated with annotated images and relevant highly concise text ideal for day-to-day in-clinic use.

**A Comprehensive Textbook of Psoriasis**  
Peerzada Sajad Ahmad & Iffat Hassan

- Full Colour | Soft Cover | 1/e, 2016  
- 6.75" x 9.5" | 246 pp | 9789385999826  
- **₹ 1395**

**Key Features**
- Incorporates newer therapies and recent burning issues in psoriasis such as metabolic syndrome, psychological morbidity, childhood psoriasis, etc.
- Incorporates ‘important points to remember’ and the section ‘psoriasis at a glance’.
- Incorporates several color photographs for visual memory of various types of psoriasis.
- Discusses the establishment and newer principles and practice of treatment.

**Tips & Tricks in Dermatologic Practice**  
Ranjan C Raval & Krina B Patel

- Full Colour | Soft Cover | 1/e, 2017  
- 4.5" x 9.5" | 156 pp | 9789385891601  
- **₹ 795**

**Key Features**
- This innovative book is an endeavour to present the practical experiences of leading dermatology practitioners from India in the field of individual patient care.
- Collection of some rare and difficult to treat cases, out of the box treatment options, many innovation and rare disorders.
- Gives some tips in diagnosing some rare conditions and tricks in treating them in some innovative ways.

**Diagnostic Dermatopathology: A Guide to Ancillary Tests Beyond the H&E**  
Gregory A Hosler

- Full Colour | Hardbound | 1/e, 2017  
- 6.75" x 9.75" | 272 pp | 9781909836129  
- **£ 60**

**Key Features**
- Covers the full range of diagnostic tests in dermatopathology, aside from H&E, with a focus on practical clinical information such as how to run the test, when to use it and how to interpret the results.
- Includes special stains, immunohistochemistry, immunofluorescence, electron microscopy, molecular testing, etc.
- Single author with hand-picked specialist contributors, replete with diagnostic tips and clinical advice based on extensive personal experience.
World Clinics Dermatology
Fungal Infections of the Skin
Rashmi Sarkar

Key Features
- This book is a complete guide to the diagnosis and management of fungal infections of the skin.
- Beginning with an overview, the book discusses the changing and rising incidence of fungal infections, causes of resistance, and different types of fungi.
- The following sections cover therapy options including topical, systemic and physical remedies. Preventive measures are also discussed in detail.
- Useful tables and more than 100 clinical images to enhance learning.

Full Colour | Hardbound | ISSN: 2347-7156
6.75” x 9.75” | 266 pp | 9789386322104

Rejuvenation of the Aging Body
Surgical and Nonsurgical Treatments
Neal S. Sadick

Key Features
- Cuts through the different techniques to explain which procedures are best suited for each specific problem.
- Focuses on the whole body (not just the face) and on the key areas those dermatologists and other clinicians treat most often.
- Includes numerous colour photographs that illustrate each technique and its effect on the appearance.
- Features contributions from experienced clinicians, edited by a well-recognised educator in dermatologic surgery.

Full Colour | Hardbound | 1/e, 2016
6.25” x 9.5” | 182 pp | 9781909836143

TATTOO
The Invaluable Compendium for Dermatologists
Shashikumar BM, et al.

Key Features
- This is the first Indian book on the topic of “Tattoos”.
- Includes all about tattoos like historical aspects, composition, methods, medical tattoos, complications and its management.
- Discusses tattoo removal methods including lasers.
- Contains more than 150 images on tattoo complications and tattoo removal.
- It is a ready reckoner for physicians, dermatologists, professional tattoo artists and for all those who are interested in tattoos.

Full Colour | Hardbound | 1/e, 2017

Catalogue 2017-18

Systemic Drugs in Dermatology
Kabir Sardana

Aesthetic Facial Reconstruction after Mohs Surgery
Salvatore J Pacella & Mark A Codner

Atlas of Liposuction
Adrien E Aliche & Melvin A Shiffman

**Systemic Drugs in Dermatology**

---

- **Key Features**
  - Comprehensively covers major systemic drug classes.
  - Alphabetical listing of drugs.
  - Listing of therapeutic vitiates.
  - Color plates represent elaborate mode of action of important drugs and classes.
  - Tabular representation of uses.
  - Elaborate listing of doses and indications.
  - Tabular representation of monitoring protocols.
  - Focus on uses of commonly seen disorders.

**Aesthetic Facial Reconstruction after Mohs Surgery**

---

- **Key Features**
  - This book provides comprehensive guidance on the repair of soft tissue defects of the face after Mohs surgery.
  - Each chapter includes examples of the most commonly seen Mohs defects with detailed pre-operative, intra-operative, and post-operative photographs as well as illustrations and text which will guide the surgeon through each step of the reconstruction.
  - An accompanying DVD highlights key operative details.
  - Lavishly illustrated with over 400 colour clinical photos.

**Atlas of Liposuction**

---

- **Key Features**
  - This new operation was devised for removal of localized fat deposits.
  - Covers the exact modus operandi, including such matters as incisions, positions and instruments.
  - Many color photographs and illustrations showing actual clinical cases are included as an integral part of the text.

**Dermatology Review for PGMEE**
Mary Vineetha & K Sobhanakumari

---

- **Key Features**
  - Chapter-wise/topic-wise scientifically and systematically important points are given.
  - Includes PICTORIALS of important topics.
  - Includes 10 pictorial MCQs in line with the recent NBE pattern and AIIMS pattern examinations.
  - Contains 10 MRCP/USMLE pattern dermatology questions.
  - High-yield information from authentic references.
  - Highlighting lines and points in different color for the aid of the readers.

**Pocket Atlas of Clinical Dermatology With Diagnosis and Treatment**
Ramesh Bansal

---

- **Key Features**
  - Author’s innovative approach has been maintained throughout the book.
  - Every disease is detailed with their more than 500 clinical photographs.
  - Every disease with their clinical diagnosis and advance treatment has been introduced for an easy grasp of individual skin disease.
  - Text is presented in a bulleted form.
  - Tables and flowcharts have been introduced to understand the plethora of clinical advances.
Textbook of Psoriasis
Jayakar Thomas

Key Features
- A comprehensive and highly illustrated guide to this dermatological disorder.
- Divided into twelve chapters, covering all aspects of psoriasis, from clinical, pathological and therapeutic, to the psychological impact of the condition.
- A general introduction is followed by chapters on epidemiology, aetiopathogenesis, paediatric psoriasis, pregnancy, HIV, and systemic disease.
- Enhanced by over 300 full colour images and illustrations.

Acne & Scars
Ramanjit Singh & Nidhi Rao

Key Features
- A practical and illustrated guide to the management of acne and scars.
- Includes preventive and curative approaches for treating acne and scars along with new guidelines on treatment and management.
- Includes a chapter for case studies, and another for frequently asked questions.
- With 250 full colour clinical images, this is an ideal book for all dermatologists.

IADVL Color Atlas of Dermatopathology
Pradeep Mahajan

Key Features
- Highly illustrated guide to the diagnosis and management of dermatologic disorders, with pathological results.
- Divided into 22 chapters, the book begins with an “Approach to Dermatology” and “Clues and Pitfalls in Diagnostic Dermatopathology”.
- Covers a range of common histopathological findings in dermatology.
- 592 full colour images and clinical photographs.

Step by Step
Urticaria & Angioedema Management
Sanjay Ghosh & Saurav Kundu

Key Features
- Includes stepwise description of urticaria.
- Updated classification, clinical features and investigations of urticaria.
- Recent guidelines on management of urticaria and angioedema.
- Details of recent drugs used in urticaria and angioedema.
- Highlights of all topics on urticarial in nutshell.
- A must for all dermatologists and physicians dealing with urticaria cases regularly.

Bhutani’s Color Atlas of Dermatology
Neena Khanna

Key Features
- Most popular book on dermatology among undergraduates and postgraduates.
- Divided into 25 chapters; covering all dermatological diseases and conditions aetologically, conventionally and morphologically.
- Discusses the principles and practice of treatment.
- Includes body diagrams, biopsy images, flow charts and tables.
- New therapies have been incorporated.

All About Leprosy
PVS Prasad

Key Features
- Viva questions have been incorporated at the end of chapters for postgraduate students.
- Updated appendices with important university examination questions and glossary.
- Recent concepts such as immune reconstitution inflammatory syndrome, rehabilitation, etc. have been added.
- Separate chapter on recent advances in leprosy.
- Unique chapter on panel discussion has been added.
Genital Dermatoses
Jayakar Thomas

Essentials in Dermatology, Venereology & Leprology
Ramesh Bansal

World Clinics Dermatology
Psoriasis
Neena Khanna & AS Kumar

**Key Features**
- Divided into thirteen chapters, the book begins with a brief introduction followed by chapters on anatomy, history taking, and clinical examination.
- Subsequent chapters cover history, clinical features, treatment and management of various disorders, including STIs, bullous dermatoses, inflammatory lesions, premalignant lesions and malignant conditions.
- The concluding chapters cover other diseases of genitalia, and genital pain syndrome.
- Enhanced by full colour images.

**Bhutani’s Color Atlas of Sexually Transmitted Infections**
Neena Khanna & Sushruta Kathuria

**Key Features**
- Chapters on Cosmetic Dermatology and Dermatosurgery, Lasers in Dermatology, psychosexual Dysfunctions, HIV Infection and AIDS have been included keeping in mind the recent developments.
- Footnotes that elaborate certain words of the text is the special feature of this book.
- Brief description of all dermatologic lesions has been highlighted in colored boxes for easy learning.

**Dermatology Review**
A Must for PG Entrance Exams
Ashfaq Ul Hassan & Sheikh Manzoor Ahamed

**Key Features**
- A concise question bank with explanations.
- Covers a wide range of most common dermatological conditions.
- Image based questions with important revision points have been incorporated at the end in color.
- Pharmacology related to dermatology included.
- Discusses latest drugs.
- Includes a new concept of ‘Dermatopathology’.
- Contains frequently asked questions in dermatology for both National and International level examination.

**Hair Transplant Surgery**
Sharad Mishra

**Key Features**
- Provides a comprehensive practical knowledge of the procedures of hair transplantation.
- Covers almost all the aspects of hair transplantation surgery from planning to postoperative care.
- Concepts are explained by a step-by-step approach, with an emphasis on presurgical planning.
- Step-by-step follicular unit extraction technique.
- Details on strip harvesting technique and trichophytic closure.
- Explains transplantation of eyebrow, eyelash and beard.
Dermatology, Venereology & Leprosy

CATALOGUE 2017-18

Aesthetic Series
Hair Transplantation
Nicole Rogers, et al.

Full Colour | Hardbound | 1/e, 2016
7.25" x 10.5" | 120 pp | 9789351529323

Key Features
- Reviews the latest techniques in the aesthetic and reconstructive hair transplant surgery.
- Each chapter is written by leading contributors involved in new procedures over the past several years.
- Discusses topics, such as Candidate selection, Donor harvesting techniques, Follicular unit extraction (FUE) vs ellipse, Instrumentation, The role of medications in hair transplantation, and Future trends in hair transplantation.

9 Contributors

Full Colour | Soft Cover | 1/e, 2014
6.25" x 9.5" | 316 pp | 9789351523000

Key Features
- Defines the art and skill of combining various techniques such as subcision, microneedling, and CROSS technique with fractional lasers to optimize results.
- Each chapter starts with the Introduction and keeps on discussing the treatment through its Principle, Instruments, Indications, Contraindications, precautions, Preprocedure Preparation, Technique, Postprocedure care, Complications, Conclusion and References.
- Inclusion of numerous photographs to give a clear picture.

14 Contributors

Step by Step
Chemical Peels
Niti Khunger

Full Colour | Soft Cover | 2/e, 2014
4.75" x 7" | 372 pp | 9789351523116

Key Features
- Basic procedures of the peel remain the same in all the chapters for the easy follow-up of important steps by the students.
- New chapter focusing on chemical peels for acne, facial melanoses and periorificial peels.
- Summarizes the essence of chemical peeling by ten golden rules.
- Guides the practicing dermatologists of how to use this versatile technique in the treatment.

895

A Manual of Dermatology
Zohra Zaidi & Shernaz Walton

Full Colour | Soft Cover | 2/e, 2015
4.75" x 8.25" | 952 pp | 9789351527923

Key Features
- Covers pediatric skin problems in type IV and type V skin.
- Contains more than 400 disease entities and more than 1000 colour photos and illustrations.
- Discusses tropical dermatological problems such as cutaneous tuberculosis, leprosy, vitiligo, skin manifestations and malnutrition.
- Emphasises on education and counseling of patients and parents.
- Inspiring quotes appear at the bottom of each page.

1650

Color Atlas & Synopsis of Pediatric Dermatology
Sandipan Dhar

Full Colour | Hardbound | 3/e, 2015
8.5" x 11" | 376 pp | 9789351526322

Key Features
- Covers pediatric skin problems in type IV and type V skin.
- Provides up-to-date account of clinical dermatology to meet the needs of trainee dermatologists and general practitioners.
- Discusses the diseases of East and West in equal depth.
- Diseases caused by bacteria, fungi, and parasites are discussed along with diseases common in the West such as inflammatory disorders and cutaneous malignancy.

3500

Laser & Light Source Treatments for the Skin
Mathew M Avram, et al.

Key Features
- The book provides an excellent, comprehensive and practical overview of the field of laser, light source and other energy-based treatments within the field of dermatology.
- Topics range from vascular lesions to laser hair removal to noninvasive fat removal.
- New techniques and clinical pearls are emphasized throughout the text.
- Chapters have numerous charts, tables and clinical photographs for better understanding.
- Useful for Neophyte and Experienced Laser Surgeon.

Full Colour | Hardbound | 1/e, 2014
7.5" x 10.5" | 230 pp | 9789350909959

The Pocket Doctor Dermatology
Arun C Inamadar & Aparna Palit

Key Features
- An indispensable pocket companion for clinicians in on-the-spot diagnosis and management in both clinical and hospital settings.
- Provides treatment plan based on recent guidelines.
- A good number of photographs, therapeutic algorithms and tables have been included.
- Written for residents of dermatology, physicians in internal medicine, and general practitioners interested in dermatology.

Full Colour | Soft Cover | 1/e, 2014
6.25" x 9.5" | 172 pp | 9789350906996

Fast Facts
Disorders of the Hair and Scalp
Roodney Sinclair & Vicky Jolliffe

Key Features
- Covers basic hair biology and pathology to understand the mechanism of hair loss and symptoms related to pathogenesis.
- Focuses on practical application, including number of top tips to aid in clinical diagnosis.
- Improves ability to diagnose a range of common and less common hair and scalp disorders.
- Key Points, Key Reference and Tables have been given in attractive colored boxes for quick reference.

Full Colour | Soft Cover | 2/e, 2014
5.75" x 8.25" | 135 pp | 9789351525615

Study of Clinical Cosmetology – 1
A Hands-on Guide
Sonia Tekchandani

Key Features
- A complete book on the subject.
- Provides detailed information on various types of urticarial and their treatment options.
- Presents practical approach of urticarial keeping new guidelines in mind.
- Useful for Practicing dermatologists, residents and family physicians.

Two Colour | Soft Cover | 1/e, 2016
7.25" x 9.25" | 138 pp | 9789351529057

Textbook of Pediatric Dermatology
Arun C Inamadar, et al.

Key Features
- Attempt has been made to make the subject easily understood by postgraduate students, academicians as well as practitioners.
- Almost 900 clinical photographs, more than 170 tables and a large number of flow charts have been incorporated to ensure easy readability.
- Elaborates pathogenesis, clinical features, histopathology and investigation to describe each condition or disease.
- Some new chapters have been added while others are revised and rewritten.

Full Colour | Hardbound | 2/e, 2014
8.5" x 11" | 604 pp | 9789351520832
Dermatology Pocket Tutor
Emma Craythorne & Marie-Louise Daly

Key Features
- Logical, sequential content, relevant basic science, clinical essentials and diagnostic pathways.
- Chapters devoted to individual disease groups within dermatology, including perinatal and paediatric.
- Descriptions of common disorders are enhanced by Clinical Scenarios which help students and trainees to recognise and manage common presenting problems.

Handbook of Botulinum Toxins for Aesthetic Indications: Theory and Practice
Kenneth Beer

Key Features
- The handbook describes current techniques and focuses on securing optimum results in different patient types.
- Covers hot topics such as the use of new types of neurotoxins, the problem of counterfeit products, and combining neurotoxins with other modalities such as fillers and lasers.
- Written by highly experienced practitioners.
- A unique problem-based approach has been used.

Handbook of Vitiligo
Basic Science and Clinical Management
Iltefat Hamzavi, et al.

Key Features
- Summarises latest thinking on established therapies and emerging techniques.
- Features practical, template-style text and emphasis on clinical application of techniques.
- Discusses all the latest management options available, from pharmacologic therapies to phototherapy and surgical procedures.
- Written by the key international names in the area.

Diagnosis and Management of Dermatologic Disorders Made Easy (Including STDs, Leprosy, HIV and AIDS)
SK Punshi

Key Features
-Fully revised and updated by the modern and revolutionized method.
-Presents pearls and pearls of dermatological disorders in a capsule form.
-Describes the global panorama of dermatology and structure of skin along with immunological functions.
-Includes lots of new clinical photographs, clinical photographs, clinical diagnostic lesions, and new geometrical style charts to illustrate text.

Color Atlas of Clinical Dermatology
Atif Hasnain Kazmi

Key Features
- High resolution photographs and the clarity add value to the color atlas of dermatology.
- Contains 260 colored photographs of diseases.
- Brief description given along with photographs.
- Useful book for medical students, general practitioners, residents in dermatology and internal medicine.

Psoriasis
A Closer Look
Jayakar Thomas, et al.

Key Features
- Encumbers detailed discussions on pediatric psoriasis and psychological aspects of the disease.
- More than 200 images describing the various aspects of psoriasis.
- Discusses Epidemiology, Etiopathogenesis, Pathology, and Clinical Aspects of the Disease in various chapters.
- Clinical signs & symptoms are highlighted in well-designed coloured boxes.
- Covers various treatment modalities available for the management of the disease condition in detail.

**Key Features**

- **Illustrated Textbook of Dermatology**
  - Most comprehensive text.
  - Written in straightforward, easy-to-grasp, lucid and clear language.
  - Many more diseases have been added to the list of curable diseases.
  - Updated with recent development and experiences.
  - Extensively illustrated with high-resolution photographs.
  - Caters the requirements/needs of the general practitioners and the undergraduate students interested in dermatology.

- **How to Cure a Skin Disease**
  - Provides knowledge regarding treatment protocol, side effects, correct drugs, adequate dosages and appropriate duration for Vitiligo.
  - Clinical photographs stimulate better understanding of the Disease.
  - Chapter on Case Histories contains a collection of a few case histories of those patients treated with full & half dose modified OMP regimen, Levamisole, and fluticasone cream.
  - A separate chapter point out the mistake committed by other practitioners during the treatment of Vitiligo.

- **Pani’s Filariasis**
  - First book of its kind, which can be used for reference as well as text.
  - Most useful for undergraduate and postgraduate course.
  - Chapter on pathology of filariasis contributed by Dr. TM Mohapatra, a well-known in the field.
  - A must for every medical student.

- **Advances in Pediatric Dermatology – 2 Neonatal Dermatology**
  - A first time monograph on Neonatal Dermatology from Asia.
  - Common and unusual entities in neonatal period are written by experts from India and around the globe.
  - An uncared subspecialty made interesting for dermatologists and pediatricians.
  - Differential diagnosis and management made simple for the neonatal dermatological conditions.
  - A beautifully illustrated must-have for dermatology and pediatric consultants, practitioners and students.

- **Recent Advances in Dermatology (Volume 3)**
  - Target readers of the book are postgraduate trainees in dermatology and practicing dermatologists.
  - The chapters have been designed in a manner to enlighten newer advancements in the field of Dermatology on the basic platform of conventional knowledge.
  - Attempt has been made to include the topics such as sebaceous, arsenikosis, post-kala-azar dermal leishmaniasis, and chemical leukoderma.

### Key Features

- **An Atlas Illustrating HIV in Dermatology**
  - This book identifies the actual scenario of HIV in Indian population; emphasizing on early identification of HIV by dermatological manifestations.
  - Emphasizes on IRIS and adverse drug reactions.
  - Presents a panorama of knowledge for not only to dermatologists but also to physicians, general practitioners, postgraduate and undergraduate students.

- **World Clinics Dermatology Acne**
  - This first issue of World Clinics is dedicated to Acne.
  - This issue is a culmination of efforts of an international team of experts who are leaders in their own field.
  - Provides reviews of the latest developments in the pathogenesis and management of Acne.

- **Management of Dermatology in Nutshell**
  - Provides basic information for management of common dermatoses through flow charts for easy references.
  - This handbook explains evidence-based guidelines, investigative guidelines, and conventional as well as recent development in the subject.
  - Treatment options are covered for brief review.
  - Multiple Choice Questions (MCQs) are provided at the end of each chapter for revision.

- **Treatment of Skin Diseases**
  - Includes details of several newly developed methods of treatment.
  - Includes numerous illustrations and colour photographs.
  - Highlights the clinical features of common dermatological diseases supported with photographs.
  - The book is specially meant for undergraduate students, general practitioners and practicing dermatologists.
This book attempts to familiarize the dermatologists regarding the easily treatable nail disorders.

- Colour photographs of clinical conditions, dermatoscopic images, line diagrams and other illustrations.
- A compilation of chapters exclusively relating to nail and its disorders, keeping in view practicing dermatologists and the residents alike.
- This maiden venture would be adequately received by the dermatology community.

Snapshots in Dermatology
S Sachchidanand, et al.

- Attempts to orient beginners to readily acquaint with common skin conditions.
- This book serves the purpose as a ready-reckoner during ward rounds and out-patient clinic.
- The presentation is precise and to the point with good photographic illustrations.
- It deserves a rightful place on the consultation tables and pocket of residents.
- Practicing dermatologists may also find it useful.

Melasma - A Monograph
Rashmi Sarkar

- Simple yet complete monograph of melasma.
- Contributions from international and national experts from their case investigations and treatments.
- Content of the book is developed from the author’s vast personal experience.
- Provides easy to follow tables and figures.
- Includes clinical photographs.

Common Skin Diseases
A Clinical Approach
Brig. SP Chattopadhyay

- Useful for students studying MBBS, BSc Nursing, DVD, MD courses as well as for the practitioners.
- The chapters are complimented with clinical photographs and histopathological microphotographs.
- Provides some of the recent advances as well.
- Highlights of the book are illustrations of procedures, therapy and clinical descriptions.
Rejuvenation of the Aging Face  
Amir M Karam & Mitchel P Goldman

Key Features
- Written by well-recognised educators in the areas of facial plastic and dermatologic surgery.
- Covers the latest thinking on established techniques and hot, new emerging ones.
- Illustrated with colour clinical photographs and short, focussed DVD clips.
- A must guide for the assessment and management of the aging face.

Critical Care in Dermatology  
Arun C Inamadar & Aparna Palit

Key Features
- Addresses the emergencies in dermatology and the concept of ‘Dermatology Intensive Care Unit’.
- Presents all the necessary inputs for better management of critically ill patients due to dermatological illnesses.
- Clinical pictures, flow charts, tables and diagrams are included.
- This book will enable most of the dermatologists in providing critical care proficiently.

Manual of Histoid Leprosy  
Virendra N Sehgal

Key Features
- Designed through step-by-step details of the entity like clinical and bacteriological features of M. leprae, cyto-histopathology and immunological profile.
- The diagnostic criteria are highlighted to facilitate its ultimate management.
- It carries a colour atlas for instant diagnosis.

Donovanosis (Granuloma Inguinale)  
Virendra N Sehgal

Key Features
- A concise book on the subject.
- Fully revised and updated.
- Deals with various facets of the diseases.
- Includes colour atlas for easy understanding.
- A sine qua non for dermatology fraternity.

Handbook of Dermatology  
G Ilangoovan

Key Features
- Useful for postgraduate dermatology students at the time of final examination.
- Few aspects of common conditions have been mentioned in this book.
- Written mainly for undergraduates, medical practitioners, nurses and paramedical staff.
**Principles and Practice of Wound Care**
Sujata Sarabahi & VK Tiwari

- Full Colour | Hardbound | 1/e, 2012
- 8.5” × 11” | 486pp | 9789350258644

**Key Features**
- Comprehensive book on practical aspects of wound care with full scientific principles.
- Provides an in-depth knowledge of all types of wounds with management as well as prevention and also how the treatment of one wound differs from the other.
- It contains chapters which deal with newer products and their mechanism, and latest technologies.
- Coloured pictures for easy understanding of the text.

---

**Cosmetic Surgery After Massive Weight Loss**
Seth R Thaller & Mimis Cohen

- Full Colour | Hardbound | 1/e, 2013
- 8.5” × 11” | 224pp | 9781907816284

**Key Features**
- Provides a definitive ‘go to’ reference for trainees and practicing plastic surgeons.
- Covers all aspects of the management of post-bariatric patients, from the options for weight loss surgery to the psychological needs of the patient.
- Gives practical advice on the approach to the patient, the formulation of individual treatment plans, and the avoidance of clinical complications.

About Medquiz

An e-learning platform by Jaypee exclusively for health science students. It is an initiative for aspiring medicos to practice and evaluate their knowledge and skills under the guidance of subject experts. This continuous evaluation program helps novices to transform themselves into expert health science professionals.

There are two types of tests available on the portal, i.e. Grand Quiz and Demo Quiz. Grand Quiz opens occasionally for which cash prizes and certificates will be awarded to the winners whereas Demo quiz will remain open throughout the year for students to practice anytime once they get registered with us.

For more updates, please visit: http://medquiz.jaypeeapps.com

Each Chapter Features:

- Important topics
- Quality content
- High resolution images
- Schematic diagrams
- Recent advances
- Case studies
- Self-assessment exercises
- References
- Contribution from subject experts
- Look and feel of the book
