Sataloff’s Comprehensive Textbook of Otolaryngology, Head and Neck Surgery

Key Features

- A comprehensive series devoted to various specialties within the field, including Otology/Neurotology/Skull Base Surgery, Facial Plastic and Reconstructive Surgery, Laryngology, Rhinology/Allergy and Immunology, Head and Neck Surgery, and Pediatric Otolaryngology.
- Covers basic science and clinical science (medical and surgical topics) of the entire field.
- Illustrious editorial team for all chapters.
- Enhanced by over 5000 full colour images and illustrations.
- Useful guide for practicing otolaryngologists and otorhinolaryngology residents.
Recent Advances in Otolaryngology, Head & Neck Surgery (6 Volumes)  
by Anil K Lalwani & Markus HF Pfister

**Pages:**
- **Volume 6**: 306 pages, 1/e, 2017 | 9789386322128 | ₹ 895
- **Volume 5**: 332 pages, 1/e, 2016 | 9789351529408 | ₹ 895
- **Volume 4**: 414 pages, 1/e, 2015 | 9789351525349 | ₹ 995
- **Volume 3**: 408 pages, 1/e, 2014 | 9789351521457 | ₹ 995
- **Volume 2**: 328 pages, 1/e, 2013 | 9789350903834 | ₹ 1095
- **Volume 1**: 372 pages, 1/e, 2012 | 9789350257906 | ₹ 1095

**Presentation:** Full Colour | **Cover Type:** Soft Cover | **Size:** 6.25" x 9.5"

**Key Features**
- Reviews emphasize clear artwork rendered in colour to convey new concepts and surgical approaches.
- Aims to provide physician-in-training, physician-in-practice and medical students with a quick reference for commonly seen inpatient issues.
- Covers common inpatient cases seen on internal medicine, family medicine, intensive care unit (ICU) as well as inpatient surgery rounds.
- Admission orders, progress notes and discharge summary examples are included to help the physicians/physicians in training focus on the points needed in each note.
- This volume keeps abreast with the new advances in the subspecialties of otolaryngology.
Surgical Techniques in Otolaryngology-Head & Neck Surgery
(6 Volumes)

- **Robert T Sataloff**
  MD DMA FACS (Series Editor)
  Professor and Chairman, Senior Associate Dean for Clinical Academic Specialties, Department of Otolaryngology - Head and Neck Surgery, Drexel University College of Medicine, Philadelphia, Pennsylvania, USA

**Product Information**
- Presentation: Full Colour | Edition: 1/e 2015
- Cover Type: Hardbound | Size: 8.5" x 11"

**Key Features**
- Each chapter addresses the medical and surgical treatment of both common and challenging conditions.
- Each procedure is presented systematically, with an overview, special considerations, alternatives to surgery, techniques, complications, and after care.
- Recent advances in diagnostic techniques and differential diagnosis are described in depth.
- Written by an internationally recognised author and editor team from the USA.
- Contains numerous highly illustrated clinical photographs and illustrations.
Atlas of Operative Otorhinolaryngology and Head & Neck Surgery
by Hathiram & Khattar

Key Features

- Bring global perspective under one roof.
- The text is covered in five volumes; the first volume discusses Otology and Lateral Skullbase Surgery and their techniques.
- The Second volume describes Rhinology and Anterior Skullbase Surgery including Endoscopic Sinus Surgery and their techniques.
- In the third volume, emphasis has been given on Facial Plastics, Cosmetics and Reconstructive Surgery and their techniques.
- The fourth volume emphasises on Voice and Laryngotracheal Surgery and their techniques.
- In volume five, emphasis has been given on Head and Neck Surgery and their techniques.
- Valuable resource for otorhinolaryngologists /head and neck surgeons, trainee doctors, trainee and established surgeons.
Textbook of Laryngology
Nupur Kapoor & Amitabha Roychoudhury

**Key Features**
- This textbook will serve as an excellent reference guide in the field of Laryngology in the global arena.
- Special emphasis on clinical co-relation, Clinical Assessment of Voice and Swallowing disorders and office based procedures.
- Detailed steps of surgery along with photographs on phosurgery followed by sections on Airway and Swallowing.
- Includes final section on Recent Advances.
- Clinical pearls at the end of the chapters.

---

Atlas of Ossiculoplasty
Madhuri Mehta

**Key Features**
- This book is an illustrative monogram dealing with different techniques of ossicular reconstruction, addressing a variety of ossicular pathology.
- Intra operative photographs are accompanied by diagram to clearly illustrate details of the technique used.
- Review of different material and techniques of ossicular reconstruction.
- Clear definition of problems encountered and their solutions as well.
- More than 1200 images and 30 videos to complement the text.

---

Endoscopic Ear Surgery
A New Horizon
Saurav Sarkar

**Key Features**
- Concise guide to the role of endoscopy in otological surgery.
- Covers procedures for numerous ear disorders.
- Compares the endoscope with the microscope, discussing advantages and limitations.
- Presented in a step by step format, and highly illustrated.

---

Minimal Access Skull Base Surgery
Open and Endoscopic Assisted Approaches
Kofi Boahene & Alfredo Quinones-Hinojosa

**Key Features**
- A highly illustrated guide to a range of approaches in ENT surgery.
- Focuses on minimal access approaches to skull base compartments using an endoscope, via natural and secondary openings into the head.
- Enhanced by 428 images and illustrations and an accompanying DVD featuring practical guidance on several procedures.

---

Surgeon’s Knife
Head & Neck Incisions
Mohammad Akheel & Ashmi Wadhwania

**Key Features**
- An outstanding compendium on the subject.
- Presents a summary of all facial and skull incisions from the oldest to the most current ones.
- Provides surgical approaches for congenital conditions, trauma and tumor surgery as well as reconstructive surgery.
- Covers all incisions of head and neck region providing a valuable piece of information.

---

Robotic Surgery in Otolaryngology
Head & Neck Surgery
Nilesh R Vasan

**Key Features**
- A practical guidebook for practicing robotic surgeons as well as those in training.
- With the help of multiple diagrams, this book summarizes the steps in performing each type of robotic operation within head and neck.
- Emphasis given on transoral robotic surgery (TORS) as well as robotic thyroid surgery.
Otorhinolaryngology/Head & Neck Surgery

Clinico Radiological Series
Temporal Bone Imaging
Ashu Seith Bhalla & Manisha Jana

**Key Features**
- Complex topic presented in a simple and lucid manner.
- Extensive coverage of Cochlear Implant Imaging.
- Unique arrangement of sections having a combined clinical and radiological perspective of the diseases.
- Chapters contributed by reputed experts from both Radiology and Otorhinolaryngology.
- High quality images and illustrations with detailed description of disease entities.

Full Colour | Soft Cover | 1/e, 2017
6.25” x 9.5” | 168 pp | 9789386322982

**Clinical Cases in Otolaryngology**
Nirmal Kumar Soni & Lokesh Kumar Bhama

**Key Features**
- Written in simple and straightforward language with concise and comprehensive coverage of the subject with up-to-date information and explanatory illustrations.
- Surgical anatomy of the nose described in detail.
- Numerous preoperative and postoperative photographs of the patients enhancing understanding of the subject.
- Photographs of cadaver dissections describing anatomy of nose and surgical procedures.
- Suits the requirements of medical students in their ear, nose and throat (ENT) and plastic surgery examinations.
- Quick reference for Junior ENT surgeons, and plastic surgeons.

Two Colour | Soft Cover | 3/e, 2017
6.75” x 9.5” | 236 pp | 9789352700561

**Rhinology Handbook**
Ashutosh Kacker

**Key Features**
- This handbook addresses seven concise chapters disorders of ear, nose and throat.
- It familiarizes primary care physicians, medical students, residents, physician assistants, nurse practitioners, and other healthcare professionals with common rhinologic conditions.
- Invaluable to primary care providers to diagnose and treat disorders and to refer patients to appropriate otolaryngologist for complicated problems.

Full Colour | Soft Cover | 1/e, 2016
4.75” x 8.25” | 146 pp | 9789351527756

**Practical ENT**
Vikas Sinha

**Key Features**
- This book is truly practical, unique and to the point.
- An excellent resource for the undergraduate medical students commencing their wards posting and practical instruction in otolaryngology.
- A good refresher prior to the examination.
- It will also serve as a useful resource for postgraduate students with regards to the sections on x-rays, operations, audiology, osteology, instruments, and FAQs.
- A very comprehensive synopsis of basic otolaryngology.
- The book elegantly captures the essence of ENT.

Two Colour | Soft Cover | 3/e, 2017
6.25” x 9.5” | 280 pp | 9789352700618

**Rhinoplasty: An Expert Manual**
Swapan Kumar Ghosh

**Key Features**
- Written in simple and straightforward language with concise and comprehensive coverage of the subject with up-to-date information and explanatory illustrations.
- Surgical anatomy of the nose described in detail.
- Numerous preoperative and postoperative photographs of the patients enhancing understanding of the subject.
- Photographs of cadaver dissections describing anatomy of nose and surgical procedures.
- Suits the requirements of medical students in their ear, nose and throat (ENT) and plastic surgery examinations.
- Quick reference for Junior ENT surgeons, and plastic surgeons.

Full Colour | Soft Cover | 1/e, 2017
6.25” x 9.5” | 168 pp | 9789386322982

**Practical ENT**
Vikas Sinha

**Key Features**
- This book is truly practical, unique and to the point.
- An excellent resource for the undergraduate medical students commencing their wards posting and practical instruction in otolaryngology.
- A good refresher prior to the examination.
- It will also serve as a useful resource for postgraduate students with regards to the sections on x-rays, operations, audiology, osteology, instruments, and FAQs.
- A very comprehensive synopsis of basic otolaryngology.
- The book elegantly captures the essence of ENT.

Two Colour | Soft Cover | 3/e, 2017
6.75” x 9.5” | 236 pp | 9789352700561

**Rhinology Handbook**
Ashutosh Kacker

**Key Features**
- This handbook addresses seven concise chapters disorders of ear, nose and throat.
- It familiarizes primary care physicians, medical students, residents, physician assistants, nurse practitioners, and other healthcare professionals with common rhinologic conditions.
- Invaluable to primary care providers to diagnose and treat disorders and to refer patients to appropriate otolaryngologist for complicated problems.

Full Colour | Soft Cover | 1/e, 2016
4.75” x 8.25” | 146 pp | 9789351527756

**Snapshot in Ear, Nose & Throat**
Santosh Kumar Swain

**Key Features**
- Extensive coverage of all aspects of ENT and Head and Neck Surgery.
- Practical reference for undergraduate students, interns and practitioners.
- Features discussion on recent advances in the field.
- Includes more than 120 images.

Full Colour | Soft Cover | 1/e, 2016
4.75” x 6” | 660 pp | 9789351524526
Otorhinolaryngology/Head & Neck Surgery

CATALOGUE 2017-18

Otolaryngology
Principles & Practice
Michael M Paparella, et al.

© Covers the entire field of otorhinolaryngology in one volume.
© International author team from USA and Brazil.
© Full colour images and illustrations throughout.
© Includes detailed discussion on sinonasal anatomy with endoscopic and radiologic correlations.
© A review of head and neck surgery for both malignant and non-malignant conditions.
© A practical review of paediatric otolaryngology and facial plastic and reconstructive surgery.

Full Colour | Hardbound | 1/e, 2018
8.5" x 11" | 2000 pp | 9789351524540

Key Features
- This Atlas provides a unique resource for clinicians to learn or review the technique to perform all the various types of neck dissections.
- Description of the different surgical maneuvers and anatomic structures pertinent to each step of the operations is presented side by side with unique colour.

Neck Dissections:
Colour Atlas of Surgical Technique
Jesus E. Medina & Nilesh R. Vasan

Full Colour | Hardbound | 1/e, 2018
8.5" x 11" | 194 pp | 9789386322289

Key Features
- The first volume is divided into two sections, covering head and neck, and laryngology.
- Second volume is divided into two sections, covering rhinology and facial plastics.
- Third volume is divided into two sections covering otology and pediatrics.
- Every section begins with the anatomy of the structures concerned, followed by chapters on associated symptoms and their diagnoses.
- Enhanced by full colour images.

Symptom Oriented Otolaryngology
Head & Neck Surgery
Zahoor Ahmad, et al.

Full Colour | Hardbound | 1/e, 2017
8.5" x 11" | 498 pp | 9789385891892

Key Features
- The first volume is divided into two sections, covering head and neck, and laryngology.
- Second volume is divided into two sections, covering rhinology and facial plastics.
- Third volume is divided into two sections covering otology and pediatrics.
- Every section begins with the anatomy of the structures concerned, followed by chapters on associated symptoms and their diagnoses.
- Enhanced by full colour images.

Full Colour | Soft Cover | 1/e, 2017
5.5" x 8.5" | 500 pp | 9789352501229

Key Features
- Comprehensive, illustrated guide to ear surgery.
- Covers a range of otological conditions from otitis media to Meniere’s disease.
- Includes up to date information on the latest technology in audiology and medicine.
- 163 full colour images, illustrations and tables.

Otology & Middle Ear Surgery
Ashok Kumar Saha

Full Colour | Hardbound | 1/e, 2016
8.5" x 11" | 1633 pp | 9789350255193

Key Features
- Provides the essential concepts in otology.
- It has a special emphasis on structure, function, pathogenesis and research.
- The book exposes the future of otology related to genetics and molecular biology, and how this interacts with clinical, surgical and research developments. Therefore, this is not only a book of the past and present but is a door to the future.

Otology & Middle Ear Surgery
A comprehensive compilation of temporomandibular joint pathologies.

Manual of Temporomandibular Joints
Shivlal M Rawlani & Sudhir S Rawlani

Full Colour | Soft Cover | 1/e, 2016
5.5" x 8.5" | 246 pp | 9789385891090

Key Features
- A comprehensive compilation of temporomandibular joint pathologies.
- Contains lucid and self-explanatory content with many clinical and radiological photographs and diagrammatic representations.
- Describes a wide range of consideration in a variety of dental specialties.
- Includes all imaging techniques for temporomandibular region under single platform.
ENT Practicals Made Easy
Sujatha S

Key Features
- It is an excellent pocket companion for undergraduate and postgraduate medical students in ENT preparing for practicals and viva.
- Covers history taking, clinical examinations, x-rays, instruments, operative surgery, audiology and objective structured clinical examination (OSCE) stations with detailed explanation.
- Concise and comprehensive coverage of all topics in an easy-to-learn question-answer format.

A Handbook for Surgical Approaches to Maxillofacial Trauma
Rajesh Yadav

Key Features
- Illustrated book.
- A road map for treating the patients.
- Written in simple language.
- Procedures are explained with simple diagrams.
- Includes basic and simplified concepts.
- Handbook for the beginners and practitioners.

Management of the Difficult Airway
A Handbook for Surgeons
Jerome W Thompson, et al.

Key Features
- The book provides a simple and mathematical approach for management of vertigo patients.
- Describes basic concepts in assessing, diagnosing and managing common peripheral vestibular disorders.
- Provides a chapter for General Practitioners (GP) to handle vertigo patients.
- Includes an interesting case series in separate chapter for the understanding of dizzy patients.
- Clinical Tips and Points to Remember are special additions.

Clinical Cases in ENT
Geetha Chary

Key Features
- An indispensable book for postgraduate (PG) students in otolaryngology.
- Extremely useful in the early stages of their training.
- Symptomatology has been discussed in detail.
- Deals with cases frequently asked in examination.
- Emphasis is based on history taking and clinical examination in detail.
- Investigations and method of treating the probable diagnosis are described.

Essentials of Ear, Nose & Throat
Mohan Bansal

Key Features
- Provides a “go-to” skills manual for surgeons focussing on difficult airway management in surgical patients.
- Covers surgical airway management issues in adult and pediatric patients.
- Provides practical guidance not just on emergency situations.
- Multidisciplinary author team combines the expertise of ENT and other surgeons, radiologists and anaesthesiologists.
The Surgical Manual of Common Otological Implants
Ing Ping Tang, et al.

Key Features
- Concise and illustrated guide to the surgical placement of ear implants, with step-by-step video clips included in the DVD.
- The surgical steps of each procedure are enhanced by 85 full colour high-resolution images.
- The manual demonstrates cochlear implants in single-sided deafness and minimally invasive cochlear implant surgery, with procedures to overcome moderate to severe hearing loss.

Self Assessment & Review ENT
Sakshi Arora Hans

An Illustrated Textbook
Ear, Nose & Throat and Head & Neck Surgery
Rakesh Prasad Shrivastav

Key Features
- Conveys new exciting advances in ENT and Head and Neck Surgery
- New edition includes topics like skull base surgery, functional endoscopic sinus surgery, cochlear implantation and other middle ear implants, etc.
- Emphasizes particularly on the clinical methods in ENT.
- Special emphasis given to the pathophysiology of diseases
- Key Points (Boxes) added for quick revision before the exams.

Lacrimal Drainage Surgery
Suresh D Isloor

Key Features
- Step-by-step guidelines on how to perform state-of-the-art surgical techniques on lacrimal drainage.
- Emphasizes the surgical anatomy of the lacrimal system and the lateral wall of the nose, including pathophysisiology, diagnostics, CT and MRI.
- Essential reference for Eye and ENT surgeons for the review of surgical procedures and latest advancement in lacrimal drainage surgery.

Basic Concepts in Head & Neck Surgery and Oncology
Krishnakumar Thankappan & Subramania Iyer

Key Features
- The comprehensive guide to the fundamentals of surgery for cancers of the head and neck, with emphasis on the diagnosis and management of specific types of tumour.
- Areas covered include thyroid, salivary glands and parapharyngeal tumours, neck, paranasal sinuses, oral cavity and oropharynx, larynx, hypopharynx and nasopharynx.
- Enhanced by nearly 200 full colour images and illustrations.

Manual of Head and Neck Surgical Oncology
Nick Stafford

Key Features
- The manual provides trainee ENT Head and Neck basic knowledge and principles required for management of the common tumours of the head and neck.
- The chapters employ a consistent style to cover (1) the indications and preoperative considerations for each technique (2) a step by step guide to each procedure, using concise text, bullet-point lists and artworks which show the surgical approaches and (3) post-operative complications.
This atlas is designed for surgeons involved in the treatment of head and neck cancer patients. It is meant to be accessible to medical students, residents and consultants in various disciplines. Highlights pearls and pitfalls expected during the intraoperative evaluation and follow-up patients.

**Key Features**
- Present the current concepts of otitis media, mucosal disease and surgical management.
- Includes anatomy and physiology of the middle ear.
- Current definitions from various disease spectra of otitis media are presented along with relevant microbiology and pathology.
- Defines eosinophilic otitis media.
- Rehabilitation of hearing loss with currently available devices has also been dealt with.

**Recent Advances in Otolaryngology-9**
Holger H Sudhoff & Mahmood Bhutta

**Recent Advances in Otolaryngology-9**
Holger H Sudhoff & Mahmood Bhutta

**Endoscopic Endonasal Surgery**
Sinuses and Beyond
MV Kirtane

**Key Features**
- Comprehensive guide to Functional Endoscopic Sinus Surgery.
- Covers techniques for management of numerous sinus and nasal disorders.
- Includes sections on postoperative care, nasal packing and surgical complications.
- Examines sinus surgery for different associated disorders.
- Includes more than 270 clinical images, illustrations and tables to enhance learning.

**Embryology & Anomalies of the Facial Nerve and their Surgical Implications**
Robert Thayer Sataloff & Johnathan Brandon Sataloff

**Key Features**
- Revised and updated in a new format.
- A summary of the latest research on gross embryology of the facial nerve is provided.
- A new chapter on Physiognomy.
- Enriched with new figures in full colour.
- The content of this small volume will be extremely useful for Otolaryngologists who care for patients with congenital malformations of the ear, anatomically related structures and one need to be familiar with the embryology of the facial nerve.
Textbook of Ear, Nose & Throat Diseases
Mohammad Maqbool & Suhail Maqbool

Key Features
- Updated and revised for medical undergraduate students.
- Multiple Choice Questions (MCQs) have been added after every section.
- New pictures and figures have been included.
- A few new chapters on management of neck masses, chemotherapy in head/neck tumors, otologic concerns in a syndromic child, and histopathology of common ENT diseases have been added.

Clinical Methods in ENT
PT Wakode

Key Features
- This book is useful for those who are in the field of vascular anomalies or who plan to plunge into this field.
- The specifics of assessment and management are elaborated in the chapter dedicated to each group.
- This book also describes the laser and radiofrequency which have emerged as important tools in management of the lesions.

Atlas of Endoscopic Laryngeal Surgery
Robert T Sataloff, et al.

Key Features
- Provides practical information on microscopic surgery of the larynx.
- Beginning with an introduction to the basic principles and procedures, the text goes on to discuss benign and malignant lesions of the larynx, neurogenic disorders and laryngeal trauma.
- Enriched with 400 images that will guide clinicians through the different conditions and types of surgery.

Atlas of Surgery of the Facial Nerve
An Otolaryngologist's Perspective
DS Grewal

Key Features
- A brainchild of Dr DS Grewal to integrate his 30 years’ experience of facial nerve surgery.
- Review various aspects of facial nerve pathology and surgery.
- Presents more than 300 intraoperative photographs.
- Useful to plastic surgeons, physicians, and neurosurgeons to understand and know various aspects of facial nerve pathology and surgery; thereby, planning the patient’s treatment in conjunction with the otologist and vice versa.

Key Features
- Designed in a well-illustrated form to learn and practice the essentials of surgery.
- Description of various diseases is well-supported by photographs and line diagrams.
- Contains Key Points at the end of each chapter.
- Informative and student-friendly for the undergraduates and postgraduates besides ENT surgeons.
- Useful for the private practitioners in their day-to-day practice.

The Management of Hemangiomas and Vascular Malformations of Head and Neck
KS Golearia

Key Features
- Updated and revised for medical undergraduate students.
- Multiple Choice Questions (MCQs) have been added after every section.
- New pictures and figures have been included.
- A few new chapters on management of neck masses, chemotherapy in head/neck tumors, otologic concerns in a syndromic child, and histopathology of common ENT diseases have been added.

Clinical Methods in ENT
PT Wakode

Key Features
- Practical handbook for undergraduate students, interns and private practitioners who wish to learn basics of ENT.
- Highly illustrated with diagrams and clinical photographs.
- Various tips are given in regular intervals.
- Explanatory notes and disease pathogenesis are explained wherever needed.
- Chapters on Thyroid, Parotid and Endoscopic Nasal Surgery are new in the second edition.

Atlas of Surgery of the Facial Nerve
An Otolaryngologist's Perspective
DS Grewal

Key Features
- A brainchild of Dr DS Grewal to integrate his 30 years’ experience of facial nerve surgery.
- Review various aspects of facial nerve pathology and surgery.
- Presents more than 300 intraoperative photographs.
- Useful to plastic surgeons, physicians, and neurosurgeons to understand and know various aspects of facial nerve pathology and surgery; thereby, planning the patient’s treatment in conjunction with the otologist and vice versa.

Key Features
- Designed in a well-illustrated form to learn and practice the essentials of surgery.
- Description of various diseases is well-supported by photographs and line diagrams.
- Contains Key Points at the end of each chapter.
- Informative and student-friendly for the undergraduates and postgraduates besides ENT surgeons.
- Useful for the private practitioners in their day-to-day practice.
Forthcoming Titles

**ENT Essentials**  
David W Kennedy & Elina Toskala

**Decision Making in Otolaryngology**  
Cuneyt Alper, et al.

**Diseases of Ear, Nose & Throat**  
Mohan Bansal

**Understanding Benign Paroxymal Positional Vertigo**  
Francesco Dispenza & Alessandro De Stefano

**Textbook of Voice & Laryngology**  
KK Handa

**Cochlear Implants**  
David S Haynes

**Rhinoplasty for the Oral and Maxillofacial Surgeon**  
Luc Cesteleyen

**ENT Essentials**  
David W Kennedy & Elina Toskala

**Decision Making in Otolaryngology**  
Cuneyt Alper, et al.

**Rhinoplasty for the Oral and Maxillofacial Surgeon**  
Luc Cesteleyen

**All Tentative Covers**
Emergencies in Otorhinolaryngology
GC Sahoo

About Medquiz
An e-learning platform by Jaypee exclusively for health science students. It is an initiative for aspiring medics to practice and evaluate their knowledge and skills under the guidance of subject experts. This continuous evaluation program helps novices to transform themselves into expert health science professionals.

There are two types of tests available on the portal, i.e. Grand Quiz and Demo Quiz. Grand Quiz opens occasionally for which cash prizes and certificates will be awarded to the winners whereas Demo quiz will remain open throughout the year for students to practice anytime once they get registered with us.

For more updates, please visit: http://medquiz.jaypeeapps.com

Each Chapter Features:

- Important topics
- Quality content
- High resolution images
- Schematic diagrams
- Recent advances
- Case studies
- Self-assessment exercises
- References
- Contribution from subject experts
- Look and feel of the book
